Bilcare Solutions increases prices for PVC- and PET films

Bilcare Solutions, the films division of the Bilcare Research Group, specialised in manufacturing of highly developed and refined rigid plastic films, increases prices for PVC- and PET films as of June 2018.

"Driven by the significant and continuous resin price increase over the past months and the considerable increase in energy- and freight costs for the manufacturing and distribution of plastic films, we see no other option than to increase prices for our films, as we are no longer able to compensate for this escalation in costs", comment Andreas Pfefferle and Thomas Piwowarsky, managing directors of Bilcare Research GmbH.

About Bilcare Research

Bilcare Research GmbH is part of Bilcare Research AG, which operates seven sites around the world. Bilcare Research AG is a global producer of rigid films and foils. For over 50 years, its manufacturing and product innovation activities have been focused on providing customer-centric solutions to the pharmaceutical sector, print and label industry as well as the security and credit card customers globally. The company employs approximately 1,200 people and has annual sales of EUR 300 Million.
