Top ratings for sustainability management: Liveo Research's pharma packaging sites awarded EcoVadis platinum and gold medals

Basel, 7th March 2024 – EcoVadis, the world's largest provider of sustainability ratings, has once again awarded excellent ratings to the sustainability management at three global pharmaceutical packaging sites of Liveo Research.

Liveo Research's USA site in New Castle, Delaware, achieved the prestigious platinum medal, ranking in the top 1% of over 100,000 companies evaluated globally by EcoVadis. Additionally, the pharma packaging sites in Boetzingen, Germany, and Singapore secured gold medals, positioning them in the top 5% of the global assessment. If only the plastics industry is considered, all three sites are even in the top 1%.

Liveo Research pursues a detailed sustainability strategy based on three pillars: "Planet, People and Products". This strategic framework is implemented at all of the company's sites, with separate targets, strategies and measures defined for each pillar. Their implementation is constantly monitored, with progress in the area of decarbonization, for example, being monitored by SBTi.

EcoVadis has now assessed the company's progress in four comprehensive areas: environment, labour and human rights, ethics and sustainable procurement. This broad analysis reflects the equally broad-based sustainability strategy of Liveo Research AG and shows the wide range of progress made in detail.

"These awards make us very proud. The independent assessment by EcoVadis demonstrates that the sustainability management at our Pharma sites is best in class," explains Dr. Carsten Heldmann, CEO of Liveo Research. He promises: "These excellent ratings will encourage us

to work even harder on improving our sustainability performance at our production sites around the world."

EcoVadis – An Overview

EcoVadis is the world's largest platform for sustainability ratings and honors the commitment and performance of companies in the area of sustainability with its medals. The company thus sets the global economic standard for corporate sustainability ratings. More than 100,000 companies in over 200 sectors and 175 countries worldwide have already received a rating. EcoVadis rates companies in four main categories: Environment, Labor and Human Rights, Ethics and Sustainable Procurement. The assessment provides an in-depth analysis of performance and an action plan for continuous improvement.
